A JOURNEY INTO REAL BEAUTY

THE PROJECT

A wonderful, exciting journey in quest of the many faces of beauty told through the dreams, lives and achievements of 43 incredible women. With Mihaela Noroc and our cameras, we traversed Europe and the US, encountering powerful stories, real smiles, sweetness and determination. 43 unique women with a unified message: beauty is boundless and a state of mind.

MIHAELA NOROC

A photographer of Romanian origins, she has photographed women in more than a hundred countries. She began when she was 16, when she was given her first camera by her father.

She also studied photography at university, but soon realised that her narrative needs went beyond the pure logic of aesthetics or commerce. She found her own dimension during a trip to Ethiopia in 2013, where a fortuitous encounter paved the way to a quest that would lead to the birth of her The Atlas of Beauty project.
